Subject: Dimock Residential GW Site Preliminary Results

Preliminary results for the Dimock Residential GW Site are included in the attachment. Included are results on the priority constituents from all labs, where available. Instead of level of certainty being indicated when results are above screening levels, an indication of whether the result has undergone final review is noted.

Updates

Preliminary results for first 15 samples have been reported - added note at top of page when page is complete.

Added preliminary results for DEHP (none above screening levels).

Results at or above screening levels: (updated since 2/7)

No new results above screening levels.

Report Files:

Final reports that have been placed on the R03FTPUser site in directory EPA Laboratory will be sent in a separate email.

Please contact me at 410/305-2732, or Robin Costas 410/305-2659, if you experience delivery problems with this report. A copy of this e-mail will be retained in the case file.
